#### **HEALTH**

- Increased access to preventive oral and medical health care.
- Increased number of children covered by consistent health insurance.
- Increased number of children who receive a Medical Home approach.
- Increased number of children who are fully immunized.
- Increased knowledge of the importance of health and wellness (including nutrition, physical activity, medical, oral and mental health).
- Increased percentage of primary care physicians and dentists who accept Medicaid and Child Health Plan Plus.
- Increased percentage of women giving birth with timely, appropriate prenatal care.
- Decreased number of underinsured children.
